

# CPSC 2350 - AI Use Disclosure

Why this survey? This disclosure form aims to *help us understand and reduce any potential risks* related to the use of AI tools in this course.

Please complete the survey **by yourself** and be **truthful**. *Using AI tools will not negatively affect your marks for the assignment/lab/etc.*

What do we mean by AI tools in this survey?

AI content generators refer to any tools that create any type of content, including (but not limited to):

- ChatGPT and all other large-scale language models;
  - Stable Diffusion and other AI-based Image Generators;
  - Code extensions for IDEs;
  - Other tools that are capable of generating text, image, codes, or any other content for the course work.
- BUT, Grammarly and other grammar checkers are NOT included.

4. Which assignment/lab/project submission is this AI use disclosure for? \*

Project Milestone #2

5. How do you feel about using AI content generators in relation to your person standards of academic integrity for this submission? \*

Completely  
Acceptable

Somewhat  
Acceptable

Neutral

Somewhat  
Unacceptable

Completely  
Unacceptable

In my personal standard of academic integrity, using AI content generators for this submission is...

6. Please explain your rating above regarding academic integrity of AI use for this submission. Why? (Write in 2-3 sentences) \*

Mainly on the testing part of the project.

We can search how to do the tests on google. But different situation may apply depending on the project structure. So using AI to fine tune those minor details and maybe search the meaning of the error message are completely acceptable.

7. How did using AI content generators impact **your learning** for this submission? \*

Greatly benefited my learning

Somewhat benefited my learning

Had no impact on my learning

Somewhat hindered my learning

Greatly hindered my learning

I did not use AI for this submission

Using AI content generators for this submission...

8. Please explain your rating above about AI's impact on your learning for this submission. (Write in 2-3 sentences, input N/A if you have not used any) \*

Google helped me on the majority of learning.

AI helped me on some minor errors so I know how to write code in some situation.

9. For this submission, how would you rate the relative contribution made by your versus AI? \*

Entirely by myself, no contribution from AI

Mostly by myself, some contribution by AI

Evenly split between myself and AI

Mostly by AI, some contribution by myself

Entirely by AI, no contribution from myself

This submission is...

10. List all the **AI tools** AND the **specific prompts** you used for this submission (input N/A if you have not used any) \*

in react, I used axios to fetch some data from an api.

When I do testing using jest, I mocked the axios fetch with [code].

But the test fail and said TypeError: Cannot read properties of undefined (reading 'then'). Why?

11. How confident were you in AI's responses that you received? \* 

- ☐ Confident
- ☒ Somewhat confident
- ☐ Neutral
- ☐ Somewhat not confident
- ☐ I did not use AI for this submission

12. How did you ensure the answer you received from the AI tool was correct? (input N/A if you have not used any) \* 

I tried the code AI provided. It is not always correct. So I received some other errors that I am capable to solve. AI is more of giving me a hint on how to solve the problem instead of providing me the answer.

13. Did you at any point abandon using AI tools and seek other resources? Explain your answer. \*

What made you abandon using the AI tool? Were you more successful using other resources? Input N/A if you have not used any

When AI gives me (looping) the same answer after a few prompt that does not solve the problem. At the end, I found out that there is something wrong with my machine because I send the file to another teammate and he is able to run the tests.

14. For each of the following items, how would you rate the relative contribution made by you versus AI? \* 

	Entirely by myself, no contribution from AI	Mostly by myself, some contribution by AI	Evenly split between myself and AI	Mostly by AI, some contribution by myself	Entirely by AI, no contribution from myself	Not applicable

**Text analysis:**

To make sense of text and generate insight as to what it means

**Summary:** To quickly understand large amount of text by extracting important information

**Q&A + Research:** To get answers from questions and find relevant information

**Illustration/Sketching:** To create visual representations of concepts and ideas such as diagrams, charts, illustrations

**Coding - Write:** To generate code by AI for software implementation

**Coding - Test:** To generate code tests by AI for software implementation

**Coding - debug:** To identify issues with existing code for software implementation

**Coding - explanation:** To understand what a code snippet does for software implementation

**Other:** to help any other aspects of the submission not listed above

15. Please explain your ratings above, especially if you have AI tools for "other" types of work. \*

AI gives me some hint and point me the direction to solve the problem. I did not use the code directly from AI response most of the time.

16. Please leave any further comments above use of AI tools for this submission / CPSC 2350 \* 

Everyone has different ways to use AI. This is a very good exercise for student to test the limits of AI.
